

UNI-lite™

RICON®
Innovation in Mobility

UNI-lite Advantages

- Lightweight Aluminum
- All Electric
- Smooth, Strong Operation
- Adjustable To Fit Most Doors
- Compact Design With Large Platform
- Easy to Maintain
- Thin, Easy Access Platform
- Affordably Priced
- 5-Year Limited Warranty

Lightweight and Strong...

The UNI-lite Wheelchair Lift from RICON with its innovative controller makes UNI-lite one of the world's smoothest and quietest operating lifts. Weighing in at only 160 lbs., the aluminum alloy constructed UNI-lite is all electric and extremely durable, easily lifting up to 600 lbs. Its thin but sturdy platform design makes it very easy to access by most users.

RICON®
Innovation in Mobility

UNI-lite™

Standard Features

- Extra smooth, quiet powerful electric motor
- High-strength, extremely lightweight, all aluminum construction
- Compact design maximizes passenger space
- Adjustable side posts allow installation in most door openings
